

## **Harmony Science Academy – Dallas**

### **Campus Parental Involvement Policy**

### Harmony Public Schools Mission Statement

“To prepare each student for higher education through delivering a Student-centered educational program with a strong emphasis on math, engineering, science, and technology in a safe, caring, and collaborative learning environment.”

### Statement of Purpose

The success of Harmony Public School students based on a program emphasizing academic excellence while motivating student achievement. The Harmony School model is:

- Rigorous (prepares student for college);
- Relevant (reinforces math and science skills); and,
- Relationships ( a strong culture of meaningful personal relationships, reinforced by teachers and parents)

Harmony attributes the strong performance of its schools and students to three core principles within the school model:

- A challenging math and science curriculum supported by theory;
- A focus on assessment across the school system; and,
- A culture of constructive competition, discipline and parental engagement.

To this end, we want to establish partnership with parents and with the community. Parents play an extremely important role as the children’s first teachers. Their support for their children and for the school is critical to their children’s success at every step of the way.
